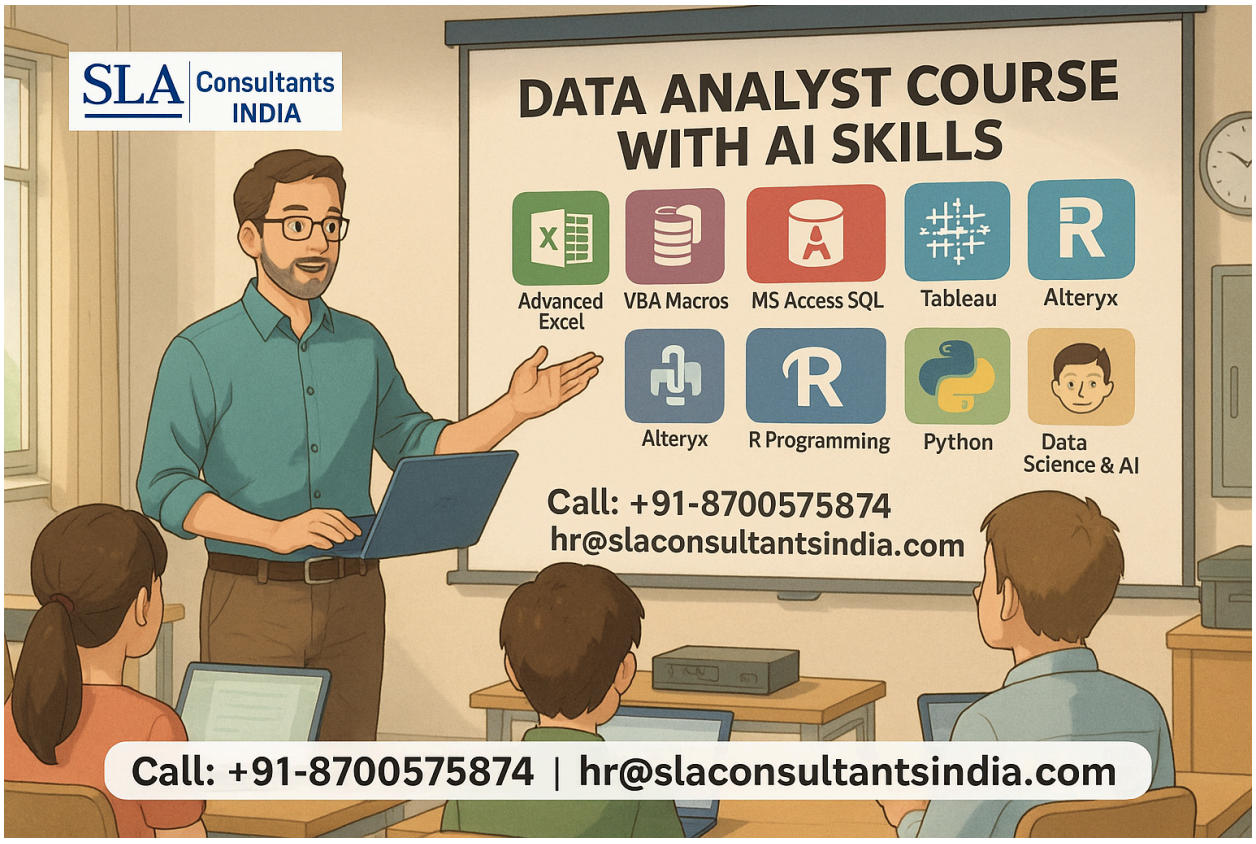
Data Analyst Course in Delhi, 110073 - "New Year Offer 2026" Free Python, Free Tableau and "Data Science Course" [with IBM Certification Support] @ {SLA Consultants} "100% Job Guarantee"



The **Data Analyst Course in Delhi**, 110073, offered by **SLA Consultants India**, is designed to prepare learners for the rapidly expanding field of data analytics in 2026 and beyond. As businesses increasingly rely on data to guide strategic decisions, the demand for skilled data analysts continues to grow across industries such as IT, finance, banking, healthcare, retail, and consulting. SLA Consultants has developed a comprehensive and industry-aligned training program suitable for fresh graduates, working professionals, and individuals seeking a career transition. Under the “New Year Offer 2026,” students receive free Python training, free Tableau

certification, and a complete Data Science course, making this program a highly value-driven option for aspiring data professionals.

SLA Consultants **Online Data Analyst Course in Delhi** curriculum focuses on building a strong foundation in data analytics concepts while advancing learners toward professional-level skills. Students begin with core modules such as advanced Excel, SQL, data handling techniques, and statistical analysis, which are essential for understanding and interpreting large datasets. The free Python module trains learners to use powerful libraries like Pandas, NumPy, and Matplotlib for data cleaning, automation, analysis, and visualization. Alongside this, the free Tableau training enables students to create interactive dashboards and professional reports that effectively communicate insights to business stakeholders. The included Data Science course introduces machine learning concepts, predictive analytics, and data modeling, helping learners expand their capabilities beyond traditional data analyst roles.

SLA Consultants places strong emphasis on practical learning and job readiness. Learners gain hands-on experience through live projects, real-time datasets, and industry-relevant case studies that reflect actual business challenges. This practical exposure ensures students can confidently apply their analytical skills in real-world environments. The institute's "100% Job Guarantee" program provides comprehensive placement assistance, including resume preparation, interview training, mock interviews, aptitude development, and personalized career counseling. With strong industry connections and a placement-focused approach, SLA Consultants helps learners secure roles such as Data Analyst, Business Analyst, MIS Analyst, Reporting Analyst, and Junior Data Scientist across various sectors.
